

E-Mentoring Scheme

Medicine, Dentistry and Biomedical Science

Do you want to access support from an online mentor, who will offer you help, advice and guidance so that you feel prepared for your next steps?

Our e-Mentoring scheme matches you with a current medical, biomedical or dental student, who you will communicate with via a secure online platform.

Our brilliant mentoring platform is also a place to ask questions about our programmes and about life as a student here in Plymouth. The platform is anonymous, securely monitored and free of charge.

For more information, please contact:
meddent-outreach@plymouth.ac.uk

What our mentors and mentees talk about:

- Revision and study techniques
- UKCAT and BMAT help
- Personal statement tips and advice
- UCAS advice
- Support with your university application
- A Level and GCSE choices
- What it's like to study Medicine, Biomedical Sciences or Dentistry
- What it's like to study at the University of Plymouth
- Placements
- Exams
- Career Options

"Michael has been amazing. I've been learning so much everyday and its been absolutely amazing experience so far. I'm always excited to receive an e-mail from Brightside."

The e-Mentoring scheme is open to anybody in Year 10 or above with an interest in studying medicine, biomedical science or dentistry. You are welcome to join even if you do not want to study at Plymouth. You can use the site as little or as often as you like, to help with your decision making process.

This scheme is offered as part of our 'Peninsula Pathways' programme. You can find out more about the programme by visiting our website.
