

Pearce Construction

APPRENTICESHIP

We shall be starting our interview selection process over the next month for our new intake of Apprentices. We have apprenticeships available in Carpentry, Trowel Trades (Bricklaying) and Business Administration. All of the Apprentices will be trained to a minimum of Level 3 in their chosen career.

Should you have any students that are interested in completing an Apprenticeship with Pearce Construction, could you please ask them to contact myself on the below email address.

Our Apprenticeships start in August/September to fall in line with the day release at Petroc.

Please do not hesitate to contact me should you require any further information.

Yours sincerely

Hilary Prouse

HR Manager
