

## Exeter Maths School

The deadline for Year 12 applications to Exeter Maths School for next September is fast approaching.

Students should apply by the end of **Sunday 7<sup>th</sup> December** to ensure they are invited to sit the Entrance Test on Saturday 24<sup>th</sup> January, and receive test practice material before the end of term.

A reminder of some of the fantastic benefits of applying to Exeter Maths School:

- Maths and Further Maths for all students, with Physics or Computer Science for their third A Level
- The option to choose a fourth subject with them, or with their neighbours at Exeter College
- An extended curriculum, learning the research and independent study skills students need at university
- Monday to Friday boarding for students who live further away, including a generous boarding bursary scheme that means some students only pay food contributions
- Support for students entitled to Free School Meals throughout the process, including travel bursaries to support attendance at admissions events, additional test practice material with a one-to-one feedback session in early January, and mock interviews
- Exam access arrangements honoured throughout the selection process

Students can start their applications at [ems.applicaa.com](https://ems.applicaa.com), and find out more about Exeter Maths School, curriculum and admissions process at [exetermathematicsschool.ac.uk](https://exetermathematicsschool.ac.uk).

Any questions can be sent to [admissions@exeterms.ac.uk](mailto:admissions@exeterms.ac.uk).
