

## **School Council Meeting Minutes – July 2026**

### Discussion Points

- More real-world debates to develop students understanding of the landscape of the world, how it works and how they might fit into it.
- Less copying off of the board, more collaborative and engaging practical work.
- Less focus on relationships, more depth around political parties and the policies they promote.

### Review of food:

- More gluten-free/dairy-free options
- Clear pricing
- More meals that can be taken outside in the cardboard pots
- Options of paninis etc. without the cheese.
- More/better distributed water fountains.

### Snack-Shack to be repurposed

- Either used for something else or ran by student volunteers [prefects]. Reward system for those that volunteer.

### Review of toilets

Some younger students do not want to use the ones crowded by older students.

Maybe one dedicated toilet block for Year 11 and KS3.
